

Attention Freshmen, Sophomores, and Juniors: Starting Wednesday June 7, 2017, you will see a survey attached to your **StudentVue** account concerning the “**Sprint 1 Million Project.**” This project enables students who do not currently have high speed Internet in their home, or access to a desktop, smartphone, tablet, or other mobile device that they do not have to share with others to possibly receive:

1. **Hotspot if available or Smart Phone with High Speed built in (Students without Internet Access at home) or**
2. **Tablet with built in Hotspot (Students who must share a device at home) or**
3. **Smartphone with built in Hotspot (Students with Dial up Internet)**

If you are interested, and think you may qualify, please ensure that you fill out this (3) question survey as soon as possible.

Note I: There is a limited supply for students who qualify, and there will be other school-based requirements to consider in the selection process such as academic progress, attendance, and acceptable usage.

Note II: A “**Parent Consent**” form must be filled out and submitted prior to access and activation of the device.

*More information will be provided once all the surveys have been collected and recipients have been selected.
